## CITY OF TULARE SITE PLAN REVIEW

### PURPOSE & INTENT

Site Plan Review is a pre-application process that gives citizens relevant feedback on any changes they wish to make to a site. Whether there are proposed physical alterations to a site or a change of use, site plan review will provide initial guidance for the project in order to meet all applicable codes and requirements of the City of Tulare. Feedback from Site Plan Review can help citizens maintain their property legally and produce coherence among the varying city land uses. Site Plan Review seeks to help sites develop in a way that enriches the community that they are in.

When an application is submitted to Site Plan Review, it is first reviewed by various divisions of the Community & Economic Development Department so that all applicable sections of the Tulare Municipal Code can be applied and enforced on the site. The divisions within the Community & Economic Development Department include Planning, Engineering, Building, Police, Fire, Solid Waste. These divisions review the Site Plan so that they can proactively deal with any problems that could arise from the proposed site changes.

Tulare's Site Plan Review process is unique in that it is a **free service** that can help citizens use their land in a manner that has been determined to be consistent with the City Municipal Code and mitigates any future conflict with the site. The Code does not seek to restrict property rights, but rather to produce compatibility with adjacent land uses while holding the site to the high standards that have helped make Tulare a better community.

The Site Plan Review Committee will try to ensure that each site is:

- *Safe* from a structural and functional standpoint
- *Fluid* in that pedestrian and vehicle traffic have adequate access to the site
- *Compatible* with surrounding land uses and the character of the neighborhood in which it exists
- *Equitable* so that all citizens have equal access to the facility

The applicant will meet with representatives from the Planning, Engineering, Building, Police, Fire, and Solid Waste Divisions who will help explain the findings of the Site Plan Review Committee. The representatives will work with the applicant to plan for the next steps in utilizing their site to suit their wants and needs.

The Site Plan Review process will either require that a site plan be resubmitted with pertinent changes or mark the site plan to revise and proceed (perhaps with minor changes). Once given a "revise and proceed" the site plan can continue on the development process and apply for any permits that may be required of the project.
